

Local Governments Empowering Our Communities

# Linking Health & Energy Efficiency to Energy Code Compliance

Demian Hardman, Senior Energy Planner

Department of Conservation & Development

June 11, 2019

# Health & Energy Efficiency

## Our Vision

- ✓ Improved Quality of Life
- ✓ Improved Living Conditions
- ✓ Convening Local Government to Increase Access to Resources
- ✓ Meeting Community Needs for a Sustainable Future
- ✓ Education, Education, Education...

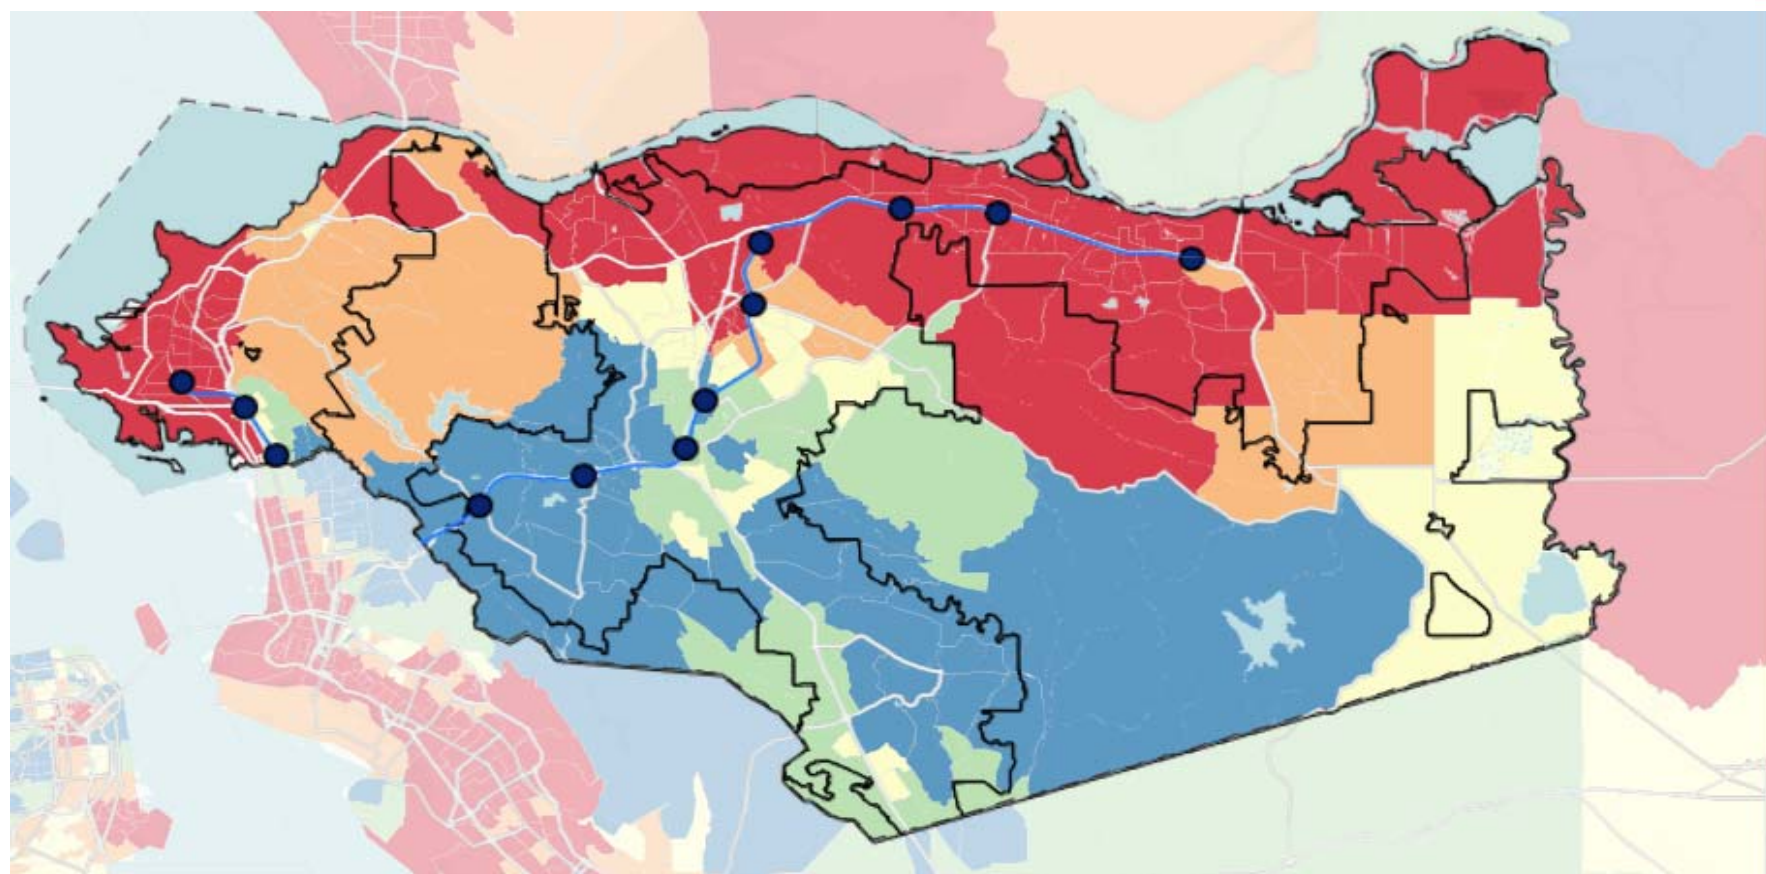

**BAYREN**

# Rate of Emergency Department Visits for Asthma by Census Tract

Rate per 10,000 Population

- > 80 To 100
- > 60 To 80
- > 40 To 60
- > 20 To 40
- 0 To 20

**BAYREN**

# Minority Populations

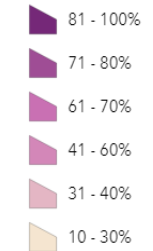

Urban Limit Line

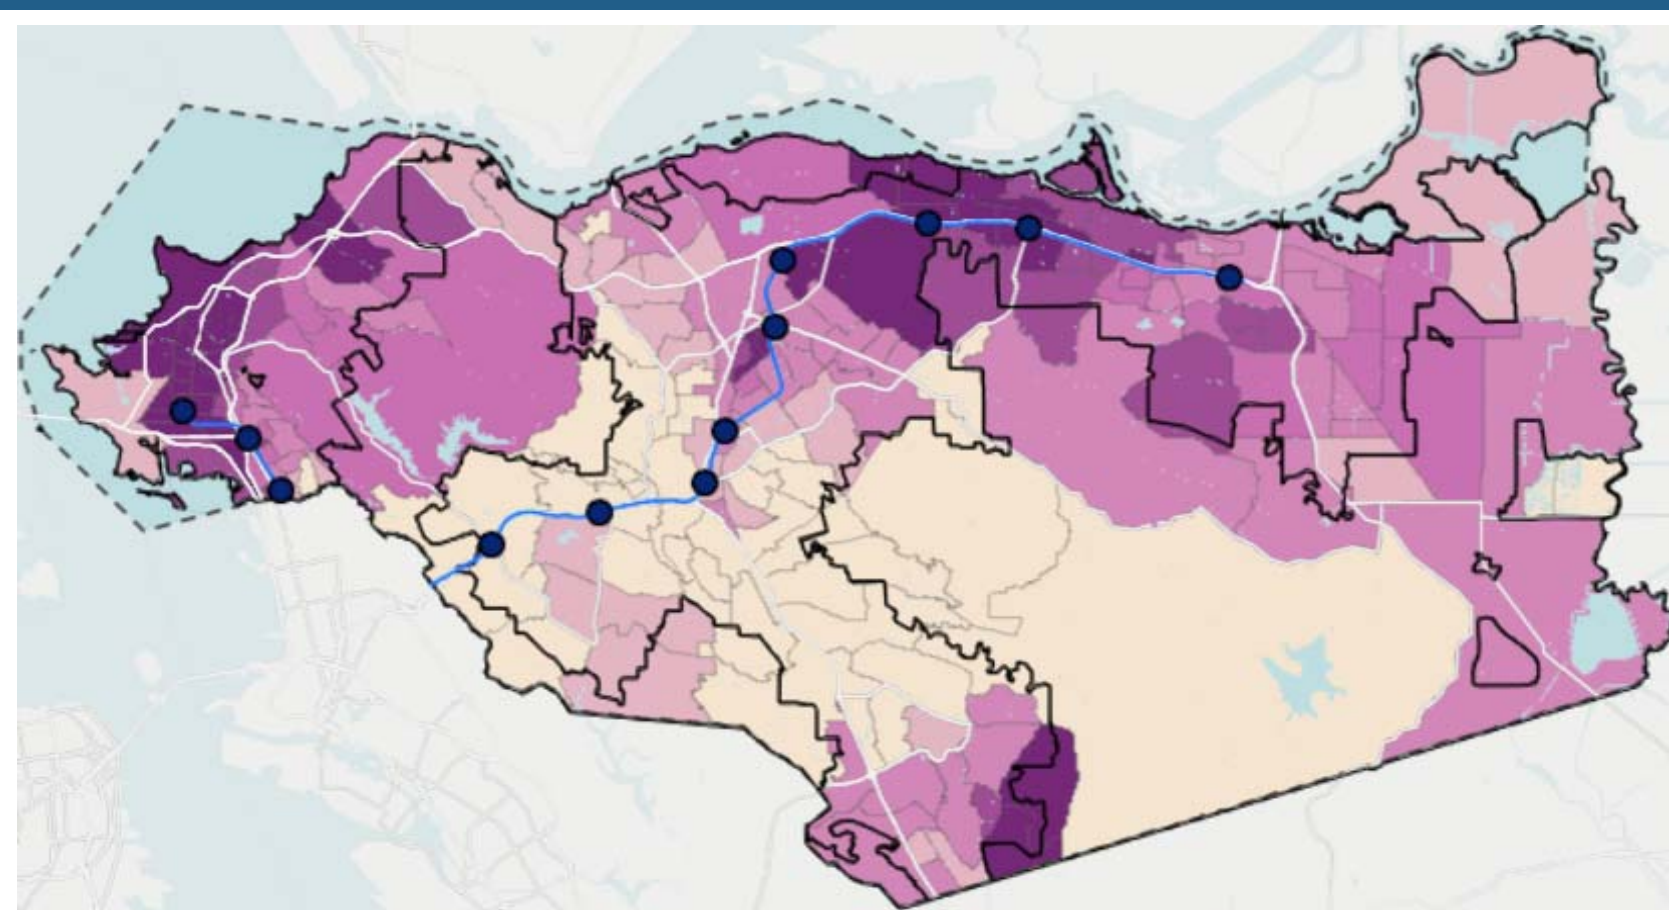

Percent Minority Population By Census Tract (2018)

Percent Minority

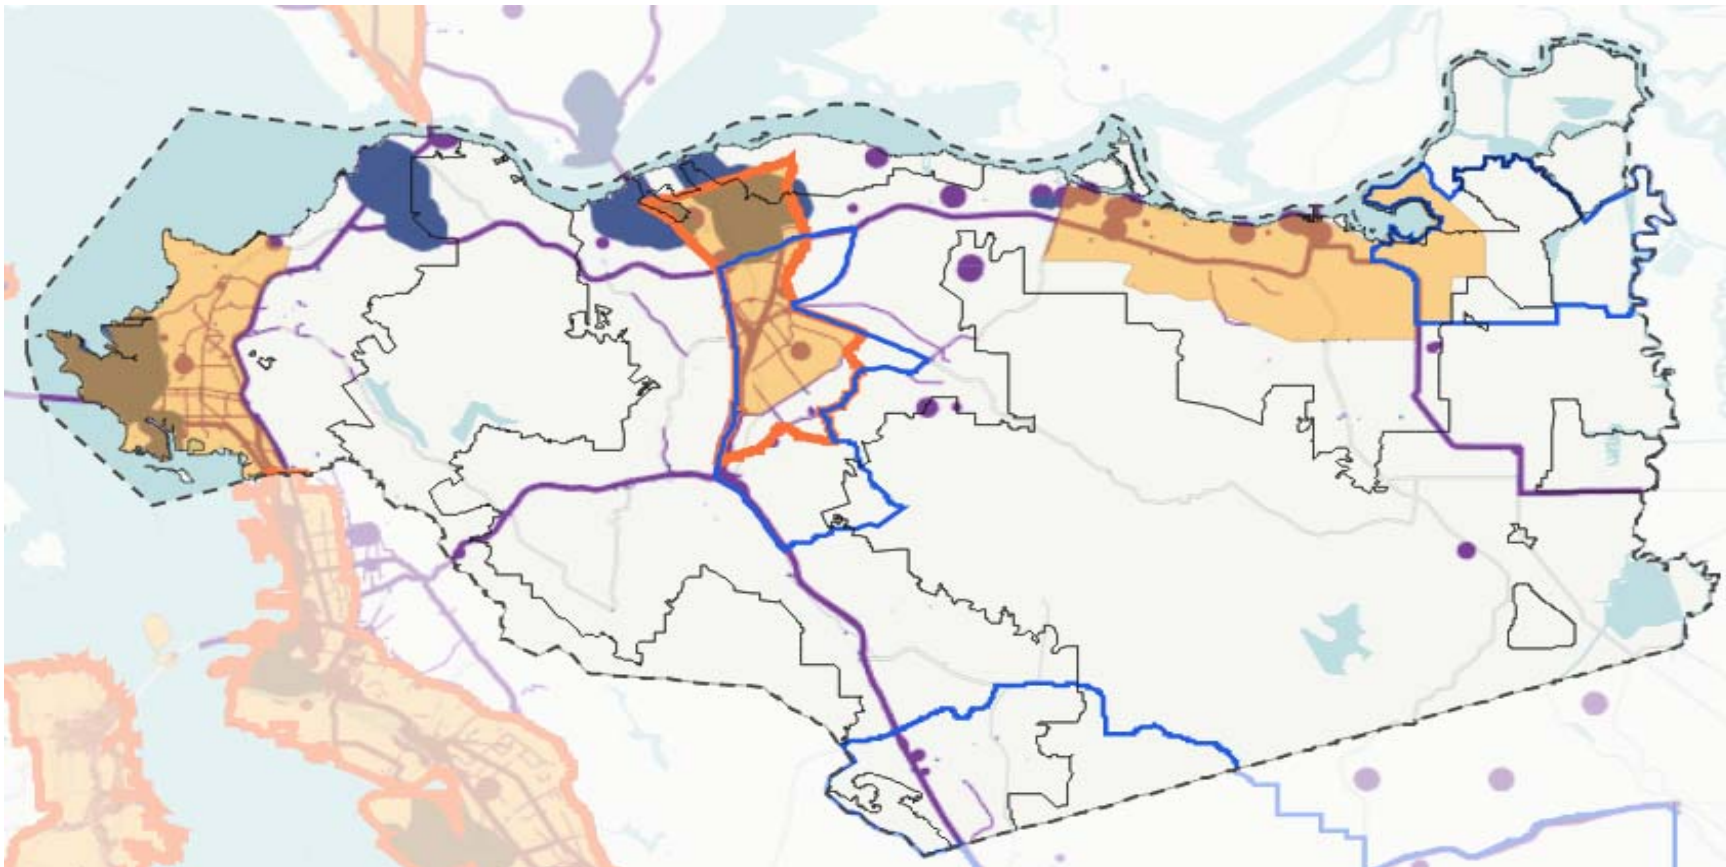

**BAYREN**

# Air Quality Impacts on Health

- Urban Limit Line
  - 8 Hour Ozone Exceedance Area
  - 24 Hour PM<sub>2.5</sub> Exceedance Area
  - BAAQMD-identified area with greatest impacts on health
  - Elevated Levels of Air Pollution (2016)
- All\_Further\_Study\_FINAL

# A Business Case for EE and Health?

- ✓ EE Code Compliance = EE Improvements
- ✓ EE Improvements = Improved Health
- ✓ Improved Health = Reduces Health Costs
- ✓ Reduces Health Costs = Better Quality of Life
